Introduction

This report explores the potential energies available for you in any particular location in the world. The report has evolved from a technique called astro-mapping, which overlays your chart on a map of the world using various methods. This overlay means that certain planets will be stronger in particular geographical areas. Through interpreting these planetary energies we can have an astrological map that tells us the best place to apply for promotions, to go on holidays, to meet lovers, and to live more fulfilled lives in the areas that are important to us.

The different lines listed in this report include Planet/Angle lines also referred to as Astro*Carto*Graphy and Planet Direction lines also referred to as Local Space lines.

Planet/Angle Lines describe where on the Earth individual planets or stars are culminating or anticulminating (or on the Midheaven and Imum Coeli) or are rising or setting (or on the Ascendant or Descendant). The Culminate/Anticulminate and MC/IC lines are always lines of longitude, whereas the rising/setting and Asc/Dsc lines are great circles around the globe and appear to curve on a map viewed in Cartesian or Mercator projection.

Planet Direction or Local Space Lines indicate the direction in which planets or stars are found when looking from the chart's location. These lines are great circles around the globe, starting from the chart's location. The common convention is to continue the line right around the world, back to the starting location. When viewed in Cartesian or Mercator projection, these lines generally appear to curve.

Let the explorations begin.

Planets On Angles

Jupiter - Culminating (Orb 2°24') - Strong Influence

The Jupiter line is about being in the right place at the right time. Even if the situation presented does not seem beneficial to your status it will be. You may even find your life taking a more spiritual or religious direction along this line. In some cases, you may find yourself stretched to the limit in your career. Again it is only with hindsight that you will see the benefits. The only drawback to travelling along this line is that you need to ensure that you do not become grandiose in your expectations of situations or people.
